

**Indiana Fever vs. Seattle Storm**  
**Regular Season Game #10**  
**Home Game #6**  
**Sunday, June 12, 2016**

**Quoting Fever Head Coach Stephanie White**

“I’m proud of how we fought back and how we competed during the second and fourth quarters after we fell behind. But we have to figure out how not to start the game so poorly. We lacked energy, we turned the ball over, we didn’t execute offensively or defensively and we didn’t get stops. When it comes right down to it, we can’t dig ourselves that big a hole. We have got to have a better effort.”

“We are a team on a journey, a journey to find cohesiveness. We have to find our rotations and we have to find cohesion on both ends of the floor. That is going to take time, and I’m ok with that. But what we can’t have is lack of effort!”

“[Seattle’s] a very good young team that’s getting better. They’re not the same team that was here only a week ago. [Jewell] Loyd is getting better, [Breanna] Stewart’s getting better, [Sue] Bird played really well and Alysha Clark is back. She is kind of their x-factor.”

**Quoting the Fever’s Briann January**

“(On the attitude the Fever displayed at the end of the game) That is in us all the time. You know, when you just have to bring it. But we have a team full of fighters, warriors and we just have to bring that mentality all the time. We’ll put ourselves in positions to be successful that way. We showed spurts of being locked in, being focused. Giving all out energy, we just need to sustain that for 40 minutes, get better that way.”

**Quoting the Fever’s Tamika Catchings**

(What is the takeaway from tonight’s game?) “I mean, I think the takeaway really is we just have to start the game out better. First quarter and third quarter, coming out of locker room basically we’ve got to figure out a better way to come out with more energy and not to dig ourselves a hole we’ve got to come out of. But I think the effort down the stretch, definitely the fourth quarter, the effort that you saw from everybody, that’s the type of energy. That’s how we have to play for 40 minutes.”
