

HOME QUOTES

INDIANA FEVER vs. SEATTLE STORM

KEYARENA | JULY 10, 2016

STORM HEAD COACH **JENNY BOUCEK**.....

(On the third quarter momentum swing)

"We ran out of gas. We had four games in six nights in four cities, just came back from the East coast, and it's a tough schedule right now. On the other hand, Indiana is starting to look like the Championship team that they are, that made it to the finals last year. They made it to the finals last year, they're looking like that team and they played really, really well tonight."

(On Kaleena Mosqueda-Lewis's play as of late)

"Everyone is competing in practice for minutes and as much as I want them supporting one another, the reality is that they earn trust in practice and Kaleena put together some really good consecutive practices and earned that spot."

STORM GUARD **SUE BIRD**

(On the mood of the team)

"I don't think the mood has shifted. Obviously losing games can have an impact on your psyche at times but the thing about this league is that you really can't let it get to you; you have to just move on. Learn from it and move on. Overall, are we happy that we are losing? Absolutely not, but I think we still have a group that can accomplish a lot this season."

(On tonight's game and looking forward)

"Tonight's game was big. In terms of standings and where they are and where we are. It hurts a little bit to lose this one but it's been a rough week. We've had a lot of games so I think it will be good to kind of take a second, get a couple days of practice under our belts, kind of recharge the batteries, and then attack it and hopefully finish with a better record heading into the Olympic break."

STORM GUARD **KALEENA MOSQUEDA-LEWIS**.....

(On getting more playing times)

"I was told to just keep my mindset strong, keep positive, and keep working hard in practice. Just making sure to be consistent and do what I could with the minutes I was getting."

(On difficulty of finding a rhythm)

"It's difficult, but I think with the type of players we have on our team it's going to be different every night for who's going to be hot. It's tough as a scorer if you don't get a lot and you don't get into a rhythm. But I think the main thing is to just stay positive and wait it out until I got the opportunity."

STORM FORWARD **BREANNA STEWART**.....

(On the mood of the team and season thus far)

"I think it's a little bit of frustration, knowing that each game we play is getting more and more important and that we need these games if we want to be able to be in playoff contention. But having three more home games is going to be great. We had a rough stretch, four games in six days, so days off will be nice and then we just have to get back to it."
