

## **STORM HEAD COACH JENNY BOUCEK**

*On winning two out of the three games versus the Mystics this season and what the difference was down the stretch in order to get the win:*

“I think our defense and rebounding came through. It is something that was inconsistent throughout the season and since the break, I think it has gotten more consistent, and it has given us a chance to win on the road.”

*On getting five players in double figures:*

“Having balance on both ends of the floor matters. Teams are too good nowadays to have two or three players carrying the load. Our team in particular. Most teams are committed to taking certain players away so other players get opportunities to make plays and make them pay.”

*On their next game:*

“I cannot even think about L.A yet. I am going to reflect on this one, enjoy it a little bit. This was a huge win and I want to learn from this game, and then we will move on and we will prepare for L.A, but that will be an exciting game for us. Every game is an exciting game for us right now. We want to extend the season as long as we can, and we love playing in front of our home crowd and we are going to have a big one on Sunday.”

## **STORM FORWARD BREANNA STEWART**

*On coming into this road trip after winning three of their last four games:*

“It’s huge. To have the tie-breaker with Washington, to beat Washington, there are trying to make a playoff push as well and this pushed us a head of them. We are just trying to keep the momentum going as we finish out the regular season.”

*On the importance of having five players in double figures:*

“It was great. The fact that we were able to have a lot of people contributing made it so Washington had to guard all five of our players that were on the court.”

*On her speech at the ESPYs and the importance of having more people pay attention to the WNBA:*

“It means everything. It’s just as important as why people should pay equal attention to woman working behind a desk and a man working behind a desk. I think we have a lot of basketball fans in this world and if we get more attention, we will get more media attention and create a greater support.”
